The 2024 National Radio Science Meeting (NRSM) conference is the 50th anniversary of the scientific meeting sponsored by the U.S. National Committee (USNC) for the International Union of Radio Science (URSI). The USNC-URSI is appointed by the National Academies of Sciences, Engineering, and Medicine, and represents U.S. radio scientists in URSI. This meeting is technically co-sponsored by the IEEE Antennas and Propagation Society.

NRSM Exhibits

USNC-URSI is taking advantage of this year's NRSM to explore new ways for our members, students, attendees, and industry to connect. We are striving to provide our community with a suitable venue to highlight the work they are doing in their laboratories and companies and to encourage impromptu discussions.

Benefits of being an exhibitor include:

- Network with the active scholars, researchers, and industry leaders in the field
- Recruiting for open positions in your company
- Recruiting for open positions in your University's graduate or post-doctoral program
- Showcasing and demonstration of new software and hardware technologies
- Workshops on selected topics of your choice
- Topical discussion of your choosing
- Network with experts in various fields of radio science under 10 commissions of URSI:
 - Commission A: Electromagnetic Metrology
 - Commission B: Fields and Waves
 - Commission C: Radiocommunication Systems and Signal Processing
 - Commission D: Electronics and Photonics
 - Commission E: Electromagnetic Environment and Interference
 - Commission F: Wave Propagation and Remote Sensing
